PROJECTS

- **Hot or Not (An ethereum based voting dapp)**
  - **Skills Used:HTML,CSS,BOOTSTRAP,ETHEREUM,SOLIDITY,WEB3.JS,BLOCKCHAIN**
  - A DAPP where a user can add any issue or propose some idea/view in the form of text or small sized images which will be stored on the blockchain network (forever)! People can react to the proposals or issues by upvoting / downvoting it. This platform can be used to arrange elections in which we can upvote our favourite view or idea. The ideas or proposal getting more votes will be trending or appearing at top respectively.

- **Interview Portal (For sharing interviews)**
  - **Skills Used: HTML,CSS,BOOTSTRAP,PHP.MYSQL**
  - This project has been developed to upload and share interview experiences. We can read the interview experiences and get benefited from that. We can search interviews by company name wise like interviews for jobs related to Facebook, Amazon etc. We can also comment below the interview articles in comment section and get our queries and doubt solved.
